

## Assembly Vertical Blind

- (L) Window (Grey zone) : 71 1/4" (WW) x 94 1/2" (WH)  
Vertical Blind : 71 1/4" (WW) + 4 7/8" (R) + 4 7/8" (L) = 81" (W)  
94 1/2" (WH) + 3" (U) - 1/2" (B) = 97" (H)  
Size to be ordered : 81" (W) x 97" (H)  
Louvers Stack : 7" = ((84 / 3) \* 0.5 / 2) for each L & R

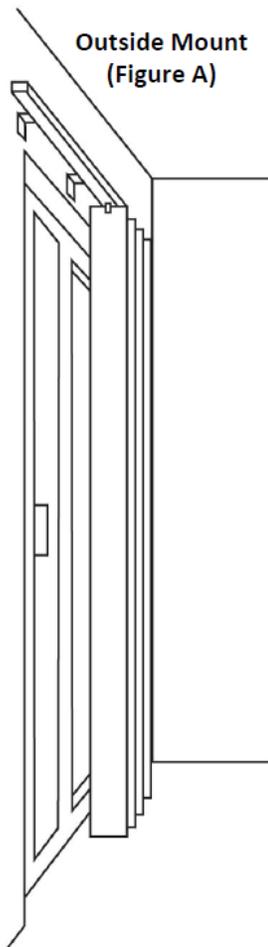

### Order Specification

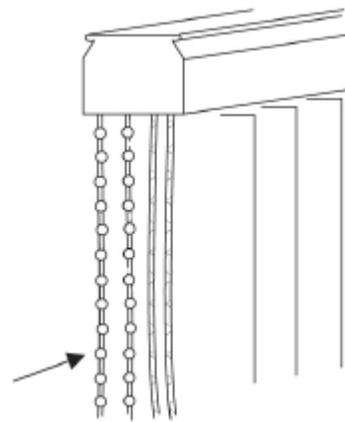

Always follow measurement instructions issued by vertical blind manufacturer when making order specification.

The way of rotating wand instead of pulling cord to open/close and rotate louvers is a bad choice from standpoint of both handling and durability.

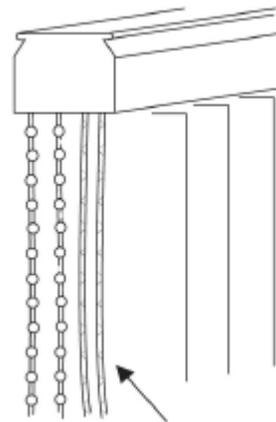

The appearance of center split method of opening/closing louvers is excellent. Valance with round corner appears to be gorgeous look.

Outside Mount Chosen

Metal Cord for Louvers Rotation

Cord String for Louvers Traverse to Left & Right
