

Repeller by Barbed Wire

A roll of barbed wire (15.5 Gauge, 4 points Barb 5" Spacing, 80 Rods (1,320'), 42lb, Zinc coating class 3)

5" Barb Spacing

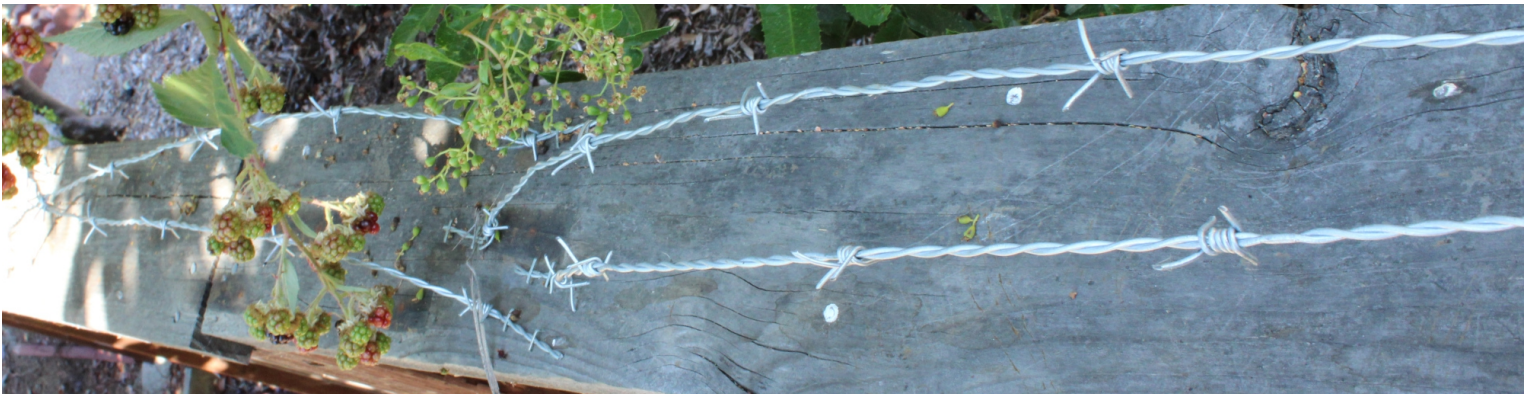

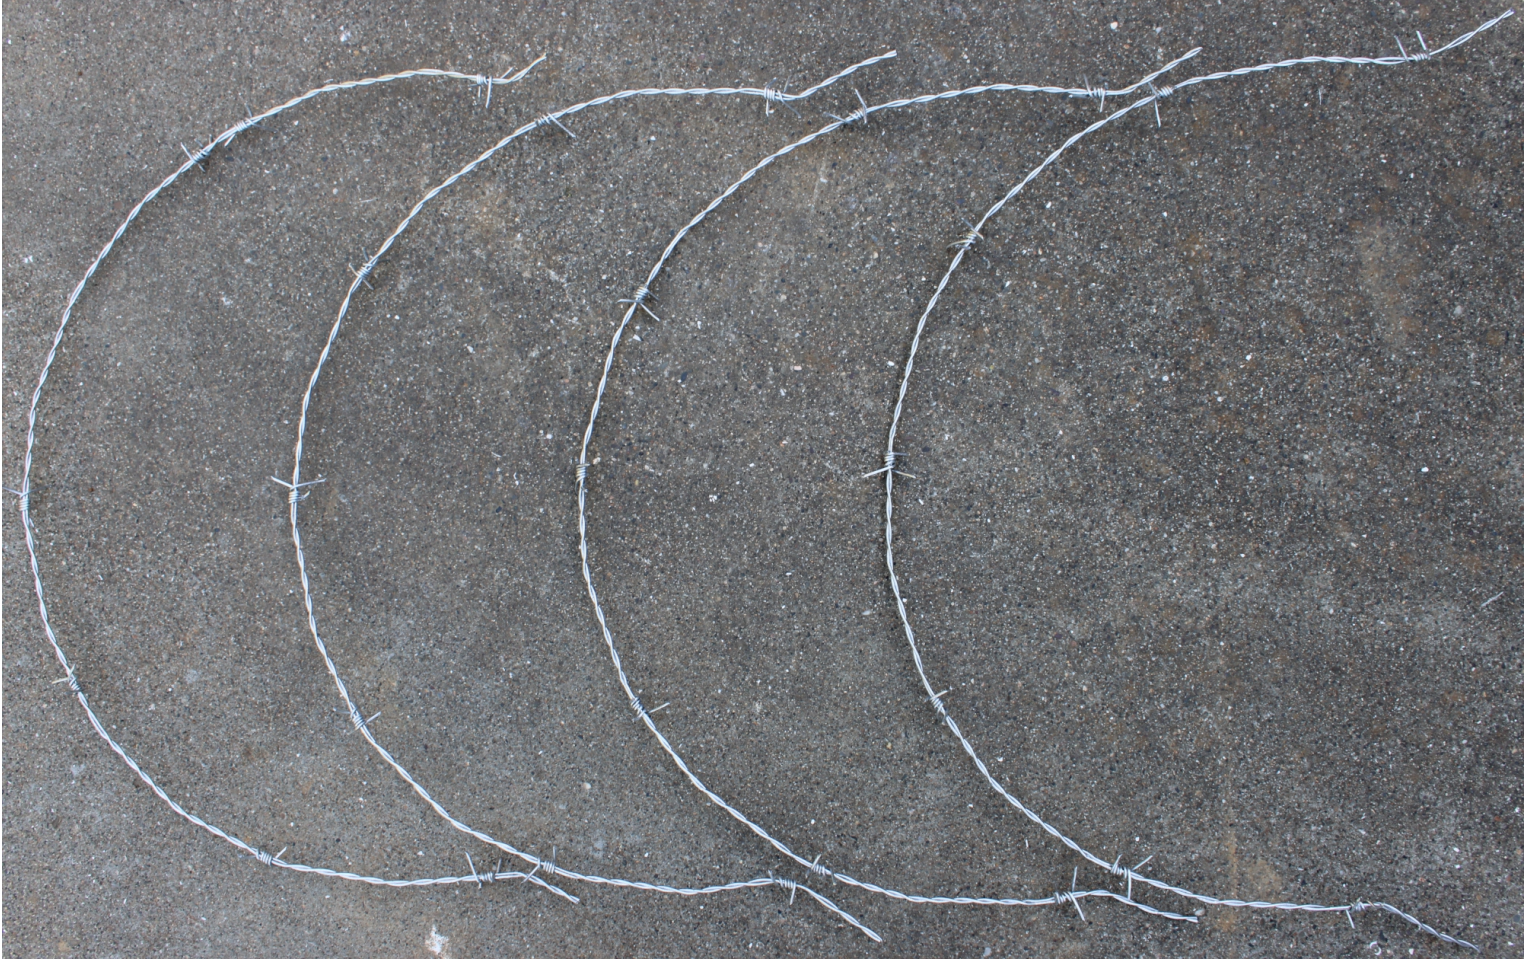

Two barbs (4 points) removed

Four barb pairs removed (A barb consists of two short pins with 2 edges 30 degrees sliced reversely)

Side Wood Fence

6" x 2" (Actual size is 5.5" x 1.5") side wood fence top was a walking highway for squirrels. To prevent walking, I put a pair of 4 x 35" barb wires on top as writing two Xs.

Pond

Right Steel Fence

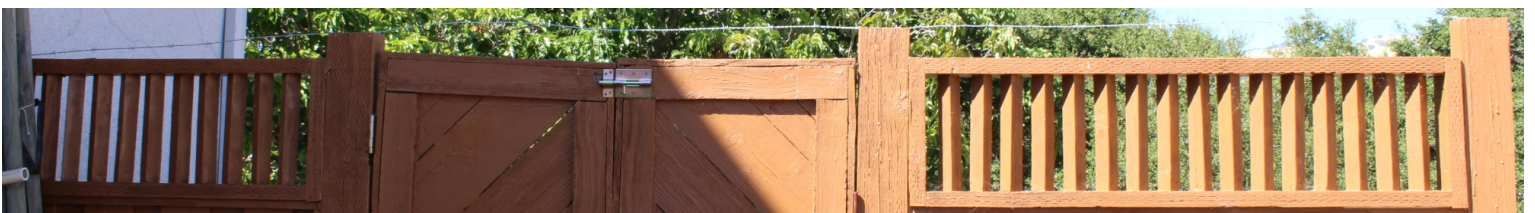

Left Steel Fence

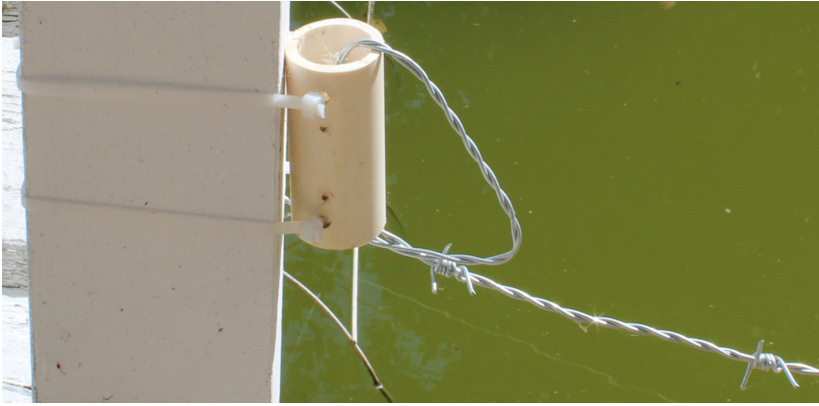

Right Wood Side Door/Fence

Left Wood Side Door/Fence

Terminators

Zip Tie

Working...

Tools

Barbed Wire, Zip Tie, Wire Cutter, Turn Table with a support bar

I have used the turn table and wire cutter for routing high-tensile wires and drip line hoses when [constructing vineyard](#) in 2007.
